

SOMERSET COUNTY LIBRARY COMMISSION
Website Design and Development 2023 RFP responses due 10/18
Addendum #1
9/20/23

In reference to Section 3 - Technical Requirements:

While it is SCLSNJ's preference to customize and develop our website—accessing html code, installing custom plugins, etc. —we understand that there may be limitations in this area.

In order to welcome a range of responses, we invite respondents to delineate any limitations in access to platform code, ownership of code versus content, etc.

Please indicate **with your proposed Website Development Plan** if access to create custom widgets and custom code is available, and if not, the course of action for development and creation of customized widgets and/or custom code.
